## **TO WHOM SO EVER IT MAY CONCERN**

JKM Infra Projects Ltd. had hired the services of RUKY Projects Pvt. Ltd. for "Two laning of Muzaffarpur – Barauni section of NH-28 from Km 519.600 to Km 627 in the state of Bihar under NHDP Phase IVB through Public Partnership (PPP) on (DBFOT) Toll basis", M/s RUKY Projects provided the following services :-

- Post Design Value Engineering Services.
- Redesign 115 kms of Plan and profile based on site conditions.
- Design of Toll Plaza administration Building.

Even though RUKY is a new organization which came up with a different concept and knowing the credentials of its promoter Mr C. Ramanaiah, we had no doubt while offering services for this project to RUKY and were sure of desired timely solutions.

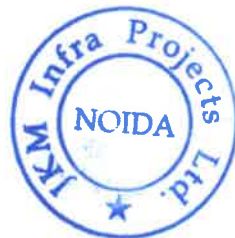

"RUKY provided their satisfactory services to our project satisfactory, even though they are working with us for less than 6 months. During this time guidance and various valuable timely services have been provided by them and have saved money and time.

JKM procured the project on competition. Post design value Engineering services provided by RUKY with their thorough knowledge of Technical and contractual matters and timely services have been helpful to the project and has given relief to the concessionaire from cost over run through post design value engineering.

RUKY was able to take up challenge of redesigning almost the entire project length of 107 kms by giving value additions to the project. They were able to re-design entire project in less than 3 months and design was adequate to justify and which leads to successful closure of many NCR's issued by the Consultants during execution in the Project.

JKM has been very pleased with the services of RUKY and would not hesitate to bring them on board again if there is another opportunity to utilize their services.

I strongly recommend RUKY Projects Pvt. Ltd. for their professionalism and effectiveness as value engineering consultants and Project management support advisors.
