TO WHOM SOEVER IT MAY CONCERN

I have had the pleasure to watch the services of RUKY Projects Pvt Ltd. in "Two laning of Muzaffarpur – Barauni section of NH-28 from Km 519.600 to Km 627 in the state of Bihar under NHDP Phase IVB through Public Private Partnership (PPP) on ('DBFOT") Toll basis" Project. RUKY provided the following services:

- Post Design Value Engineering services
- Redesign 115 kms of Plan & Profile based on site conditions
- Close-out Management Advisory services
- Design of Toll plaza administration Building

Knowledge of RUKY team in technical and contractual and behavioural aspects is appreciable. The quality of services and timely actions on the assignments given them is unmatched in the industry. Having extensive experience in the highway industry and having held the highest post of DG&RD, I have no hesitation to say, the value engineering services provided by M/s RUKY in the above said is highly cost effective for the concessionaire/contractor. Their knowledge in both contractual interpretation skills and technical soundness is high. It may not be an exaggeration to mention, that the quality of services and timely delivery designs and drawings provided by RUKY are highly appreciable. I strongly recommend the services of RUKY Projects Pvt. Ltd., such as Design, Redesign, value engineering consultants and Project management support advisors to all industry stake holders. Please feel free to contact me should you have any questions in regard to our experience with RUKY or need any additional referral information.

I highly recommend RUKY Projects Pvt. Ltd to all Highway stake holders. I wish M/s RUKY Projects and its management all success.
